

# Advanced install

URL: <https://docs.grassfish.com/docs/advanced-install>

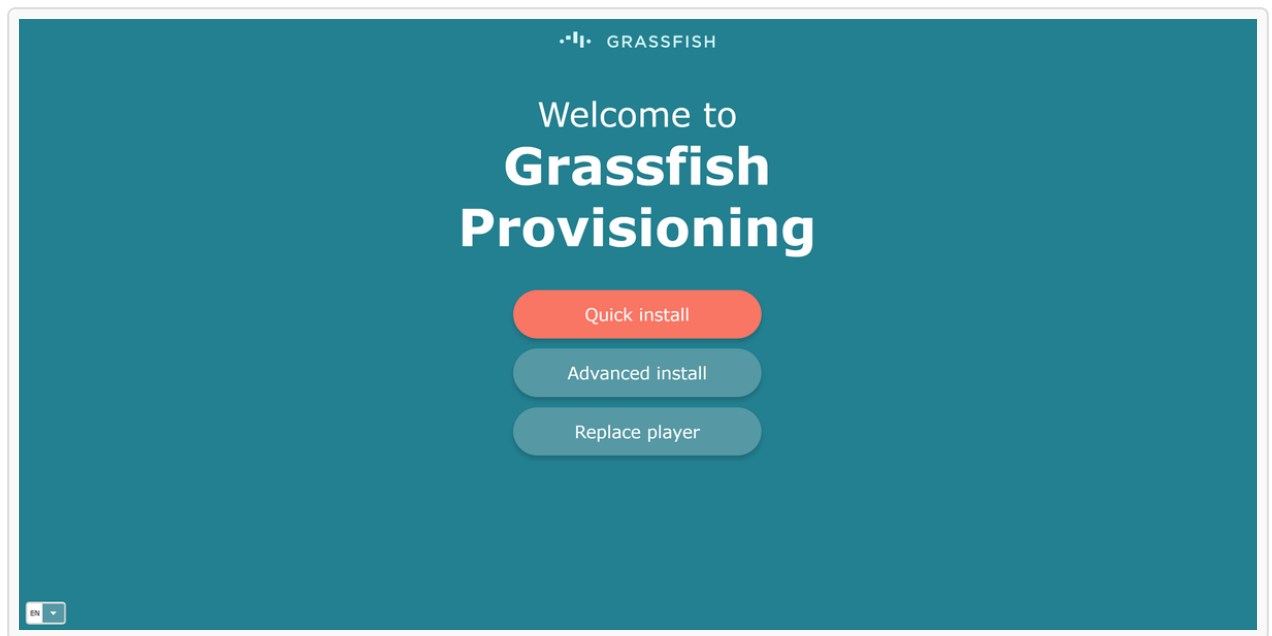

Archiviert am: 2025-07-17 18:37:56

To initialize the player, perform the following steps:

1. Start the player. Note the TPID that you see on the screen.

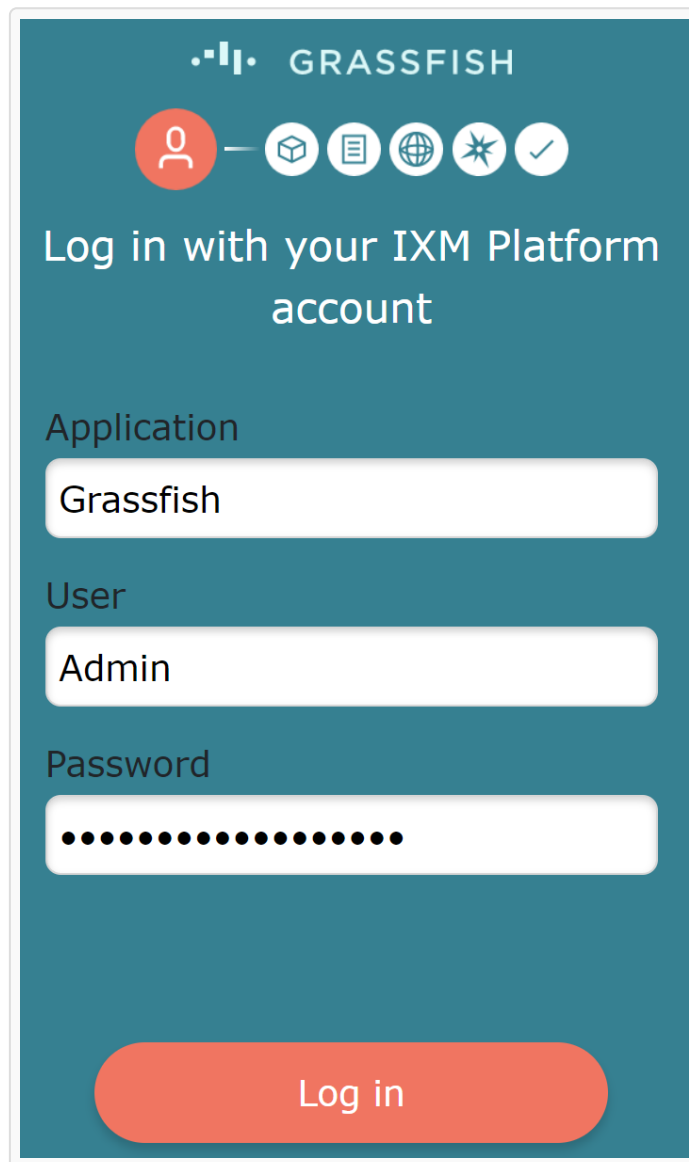

2. Open the provisioning website via the custom URL.
3. Optionally, select a language from the menu at the bottom left.
4. On the provisioning website, select **Advanced install**.

5. Enter the following data:

- **Application:** enter your IXM One application name.
- **User:** enter your IXM One username.
- **Password:** enter your IXM One password.

6. Click **Log in**.

The image shows a login screen for the GRASSFISH platform. At the top, there is a signal strength icon and the text "GRASSFISH". Below this is a horizontal row of icons: a red circle with a white person icon, followed by a minus sign and five white circles containing a cube, a document, a globe, a star, and a checkmark. The main heading is "Log in with your IXM Platform account". There are three input fields: "Application" with the value "Grassfish", "User" with the value "Admin", and "Password" which is masked with dots. At the bottom is a large orange "Log in" button.

7. Enter the **TPID** and **Box-ID** of the player.

The image shows a mobile application interface for Grassfish. At the top, there is a signal strength indicator and the text "GRASSFISH". Below this is a navigation bar with six icons: a person, a cube (highlighted in red), a document, a globe, a star, and a checkmark. The main text reads: "Enter the TPID displayed on the player and the Box-ID previously set up in the IXM Platform". There are two input fields: "TPID" with the value "26637561" and "Box-ID" with the value "r58x". At the bottom is a large red "Continue" button.
